General Conditions

Jellyfish continued to be the major issue on the beach in September. Moon Jellyfish moved into the area and decided to stay for awhile. Rip currents were less of an issue because of the mild surf conditions. Ocean water temperatures remained in the low 80's. Swimmers are advised to pay close attention to beach condition flags, swim near lifeguard towers and avoid swimming during non-guarded beach hours.

Areas of Concern

Jellyfish stings are numerous. Swimmers are cautioned not to swim in the water when bait pods are present because of the number of predatory fish feeding on the pods. We encourage all beach goers to take more trash off the beach than they generate. Stay hydrated and use sunscreen. Swim near a lifeguard!!!!

Key

Park Attendance: includes areas immediately north and south of each park

Preventative Actions: stopping potential incidents before they occur

Minor Medicals: a medical incident which is treated on-site by lifeguard/EMT personnel

Major Medicals: a medical incident that required Emergency Medical Services
